PRESENTATION

INYECCION ARTICULOS LABORATORIO S.L. is a company specialized in the manufacturing of plastic equipment for injection.

It was founded in 1975, in a facility in Montcada i Reixac, as a manufacturer of toothpaste tube caps. After having been established as a supplier of some important pharmaceutical companies, it progressed and increased the production resources, the production capacity and the customer portfolio with companys like Ferrer Internacional, Laboratoris Esteve, Laboratoris Lesvi, Reig Jofré, Sanofi and Cosmodent, which, among others, trust in our work. Currently, it has its facilities in Calonge.

The mission of Inyección Artículos Laboratorio is to offer quality and reliable solutions, adapting at all times to the needs of the client, maintaining stable and close relationships.

Quality is a priority for us. We have the Certificate ISO 9001:2008, Llicència Sanitària de Funcionament de Productes Sanitaris, Certificate ISO 13485:2013, Certificat de la Directiva de Productes Sanitaris 92/42/ECC.

The main objective of Injection Laboratory Articles is the design of manufacturing and the supply of articles for the pharmaceutical industry.

The production is carried out in the industrial area of PAEC, in Calonge, and has the needed means to perform all the processes of manufacturing, injection, printing, assembling, packing and the finishing touches.

OUR MAIN PROCESSES ARE:

ADVICE AND DESIGN

We advise you on design, graphics and custom packaging. We cover all phases of the process to get a perfect finish of the product

INJECTION, INJECTION BLOW

We have Automatic Injection Machinery. We are responsible for all the processes: designing the pieces, manufacturing them and delivering them so they can be certified

PRINTING

We print jars, glass jars, syringes, pipettes ... in various printing systems: THERMOIMPRESSSION, SERIGRAPH, FLAT TAMPOGRAPHY, ROTARY TAMPOGRAPHY.

SETTING UP

We offer a wide range of final packaging formats to be able to adjust to the customer needs

PRODUCTS

Our production system makes it possible to adapt ourselves to customer needs in the minimum ordering and delivery. The company manufactures each model in different colours, with several presentations; flow-packs, re-sealable bags, cardboard boxes, etc.). All models have CE Certificate. We perform the finishing touches that the client needs. Inyección Artículos Laboratorio carries out all the production processes in its facilities.
